Share of S&E articles internationally coauthored, by selected country: 2000 and 2013

NOTES: Articles refer to publications from a selection of journals, books, and conference proceedings in S&E from Scopus. Articles are classified by their year of publication and are assigned to a region/country/economy on the basis of the institutional address(es) listed in the article. Articles are credited on a whole-count basis (i.e., each collaborating country/economy is credited with one count). Articles with international institutions are counts of articles with institutional addresses from more than one country/economy. See appendix table 5-41.
